

COMMUNICATIONS RELEASE

FOR IMMEDIATE RELEASE

Boyce Schaeffer, LLP

October 10, 2013

***Carlo Reyes, MD JD to Present Two Sessions at the
ACEP13 Scientific Assembly***

Emergency medicine professionals from all around the world will be convening in Seattle for the ACEP13 *Scientific Assembly*. Carlo Reyes, MD JD, an emergency physician, pediatrician, and healthcare attorney, will be presenting two sessions at the conference titled "Beware! The New Hotbed of Litigation" and "Black Boxed Drugs We Still Use: What's The Risk?" on 10/14/13. The lecture on litigation risks will review new trends in medical malpractice, ranging from third party liability to EMTALA. The lecture on black boxed drugs shall review the latest FDA warnings regarding drugs emergency physicians use every day.

The conference promises to be a stimulating and educational event for all emergency medicine professionals. The three and a half-day event takes place October 14-17, 2013, and features advanced emergency medicine courses, many hands-on skills labs, a variety of pre-conference options, and many exciting networking opportunities.

The ACEP13 *Scientific Assembly* is a great opportunity to expand your network and gain valuable information from the most comprehensive and up-to-date emergency medicine education, says Reyes. "I am greatly looking forward to leading discussions on medical-legal topics vitally important to emergency physicians."

The American College of Emergency Physicians promotes the highest quality of emergency care, and is the leading advocate for emergency physicians, their patients, and the public.
